Brookline Precinct Profiles

Precinct 5

Introduction

The Brookline Precinct Profiles, otherwise known as, "Where in the World is Your Precinct?" were conceived by the Brookline Town Meeting Members Association (TMMA). The profiles have been developed for two purposes: First, to ensure that precinct residents have a resource to refer to when seeking information about their precinct; Second, for Town residents in other precincts and other people interested in learning more about a particular precinct.

Precinct 5 Narrative

◆ *Precinct Boundary*

Precinct 5 is located in north east Brookline, adjacent to Brookline precincts 4, 6, and 14. It is bounded on the north by Boylston and Allerton Streets; on the east by High Street and the City of Boston; on the south by the City of Boston and Chestnut and Walnut Streets; and on the west by Warren Street.

◆ *Precinct 5 History*

Precinct 5 is bordered by the old Worcester Turnpike (1806), the Emerald Necklace, and Chestnut and Warren Streets. It includes most of the Pill Hill area, the Point, and a section of the Town Green neighborhood.

Walnut Street, known as the old Sherburne Road laid out in 1658, was the central link from Boston through Brookline and out to points west. By the mid 19th century, the shift of the civic center from Town Green to Brookline Village and the coming of the railroad led to a spurt in development and the annexation of the area from High Street to the Muddy River. Pill Hill is a wonderful mix of 19th and 20th century styles ranging from Federal to Italianate and Mansard to Queen Anne to Colonial Revival. The

residents of the neighborhood carefully developed much of this section. The Tappan-Philbrick house, built in 1805, was a center of Brookline abolitionism and a stop on the Underground Railroad. The Swedenborgian Church, now the Latvian Lutheran Church, was constructed in 1862 by members. The Brookline Land Company formed in 1860, planned and sold off land until the early 20th century. The area known as the point became a center for the Towns immigrants and workers of the 19th century with Irish, Germans and Italians. This is a rare area with wonderful triple-deckers and single-family houses. The houses on Hart Street are some of the earliest in the Town, having been built in the 1840s and moved here from Brington Road in the 1870s. The Town Green area across Cypress Street encompasses the area that was the geographical center and the first civic center. The Lincoln School complex was built in the 1980s. The Kennard House, now the Brookline Music School, is an outstanding example of the Regency style, designed by Gridley Bryant.

◆ *Precinct 5 Today*

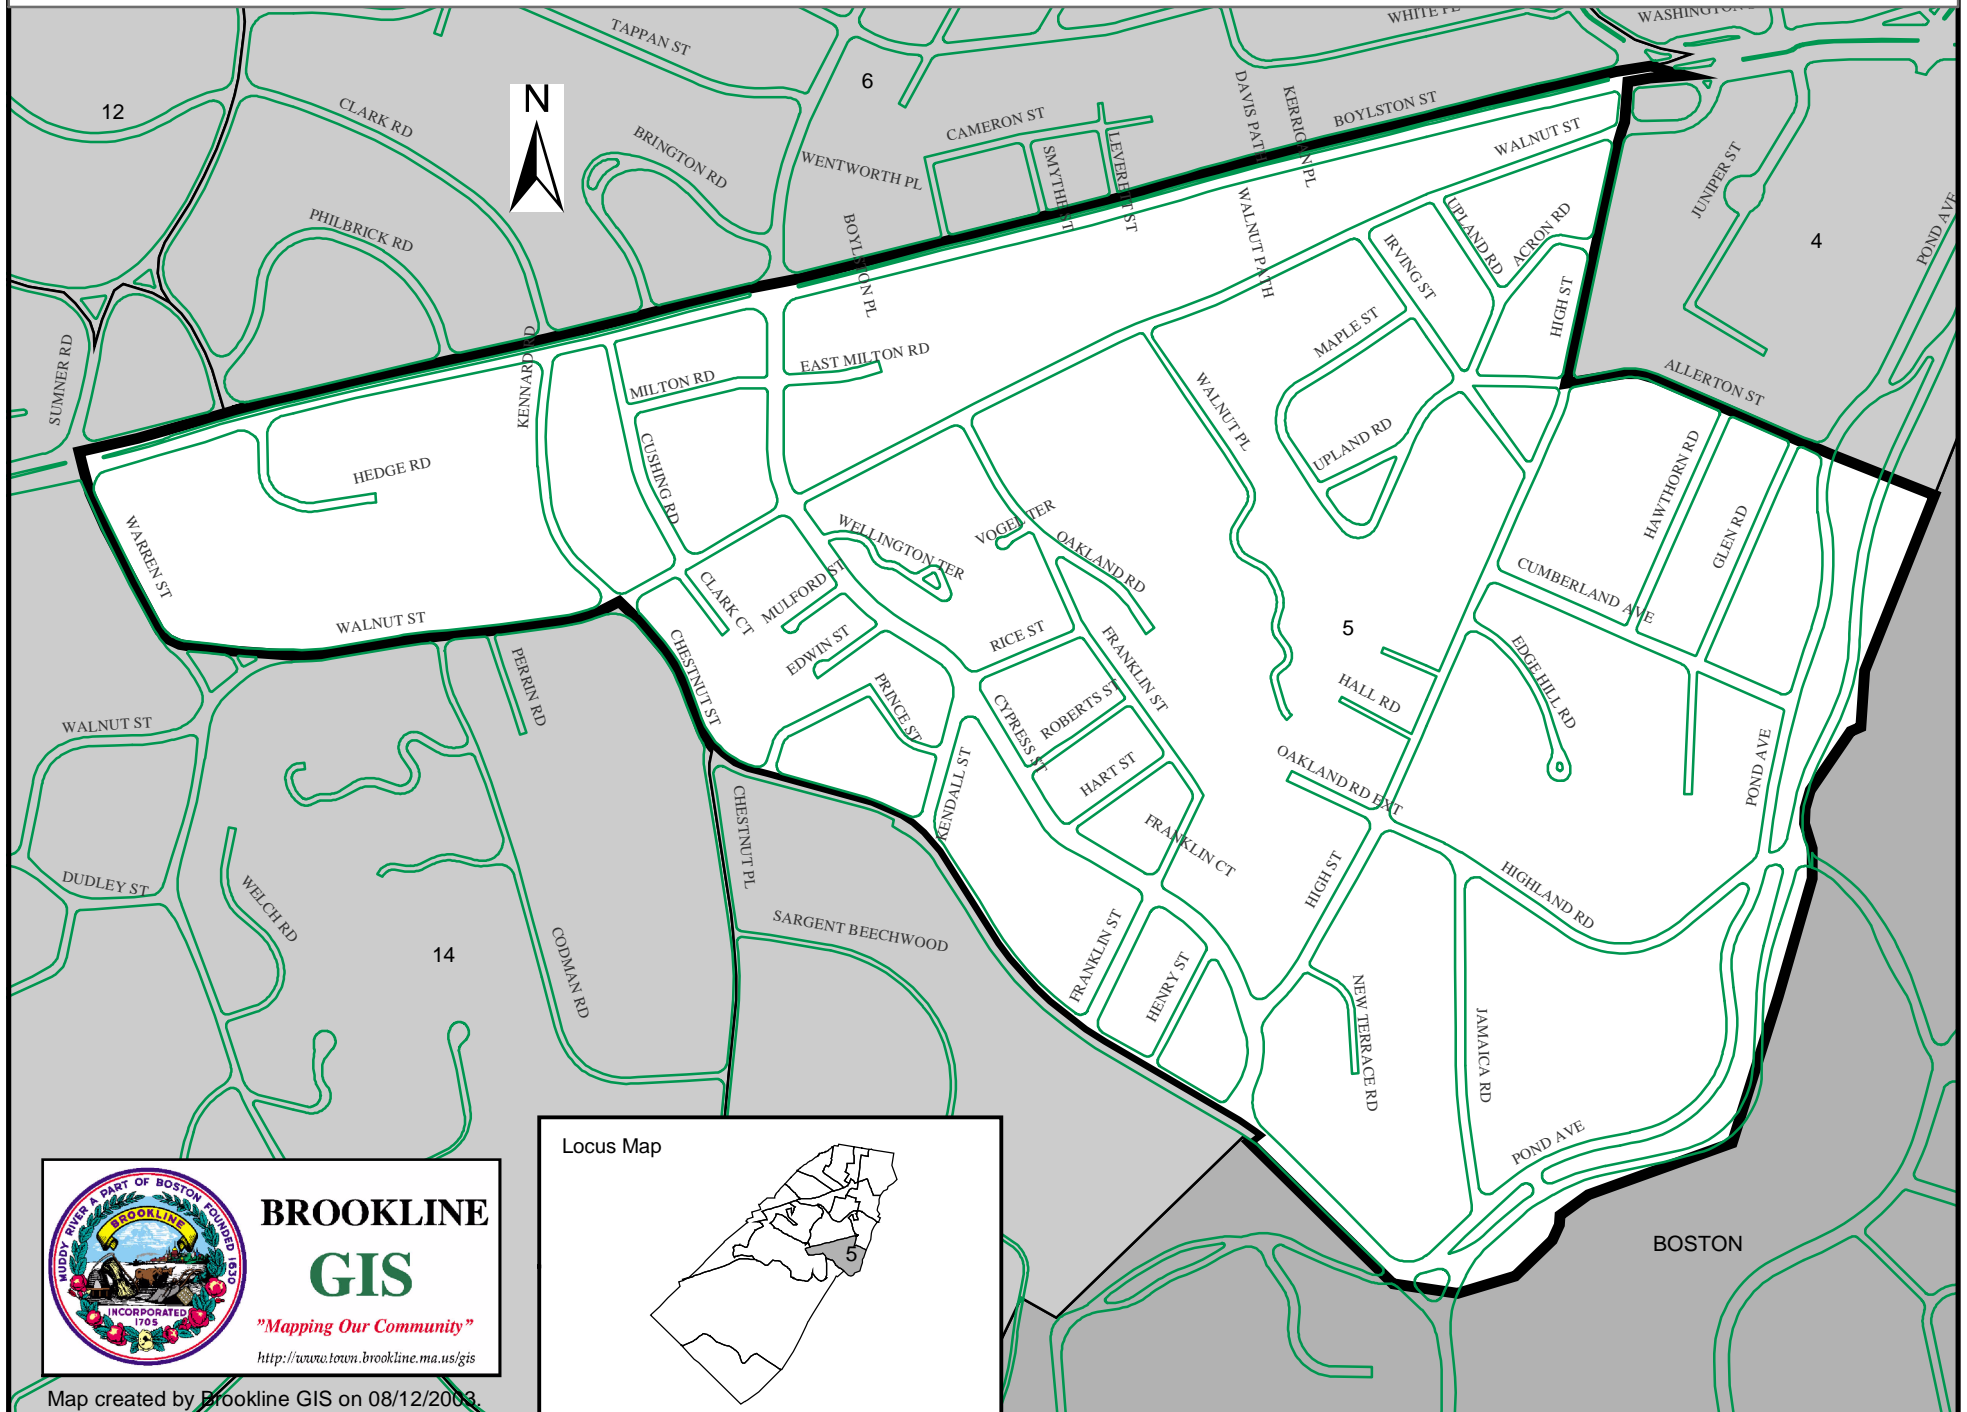

Consisting of 169 acres on 7,355,943 square feet of land area, Precinct 5 is typified by one, two, and three-family homes on small to moderate sized lots. However the precinct does contain a moderate amount of multi-family residential. Renter-occupants and owner-occupants are nearly equal in number. There are 191 affordable housing units currently in Precinct 5. Finally, Precinct 5 contains a small amount of retail, office, and other commercial uses on Boylston Street.

As noted, the predominant land-use pattern in Precinct 5 is single, two, and three-family residential which makes up nearly 94

percent of the zoned land and more than 56 percent of the land area of the precinct. Precinct 5 does not have a clearly defined focal point but the intersection of Boylston and Cypress Streets could be such an area. Precinct 5 contains nearly 23 acres of public recreation and open space including Harry Downes Field; the Old Lincoln, New Lincoln, Margaret Robinson, Clark, and Sewall

playgrounds; the 100 Walnut Place and Walnut Street conservation land parcels; Olmsted Park; and Philbrick Square. Major public facilities in Precinct 5 include the Old and New Lincoln Schools. Houses of worship in or near the precinct include the First Parish Church and the Latvian Lutheran Exile Church.

(Additional regulations are contained in the text of Article 5.00)

**Maximum 7 stories

**Required Lot Frontage: 25' in S and SC districts
20' in all other districts**

FOOTNOTES:

1. If the entrance to a garage or covered vehicular passageway faces toward the street to which its driveway has access, said entrance shall be at least 20 feet from the street lot line.
2. At the end of each row or block of one-family attached dwellings, a yard shall be provided along the street line or side lot line of at least ten feet plus one foot for each dwelling unit in excess of two. In T districts, see also §5.48. In M districts, a building subject to the side yard formula:

$$10 + \frac{L}{10}$$

may be built to the side lot line: (a) as a matter of right if, on the adjoining lot, a principal building with no setback from that lot line already exists or is proposed to be built concurrently; (b) by special permit if the Board of Appeals finds that reasonable development of the lot necessitates building to the side lot line, such action does not unreasonably infringe upon the light and air of any existing adjoining building, and the party wall is solid and has neither doors nor windows. A building with

no side yard shall not have a building wall on the side lot line extending more than 70 feet to the rear of the front yard required by this By-law; except that a building wall may be located along any part of a side lot line on which a principal building on the adjoining lot abuts between the rear yard required by this By-law and the required front yard line. Where building walls more than 70 feet to the rear of the required front yard are not permitted to be built along the side lot line, said walls shall have a side yard setback not less than:

$$10 + \frac{L}{10}$$

the "L" dimension being that portion of the wall required to be set back from the side lot line.

3. L is the length of a wall parallel (or within 45 degrees of parallel) to the lot line, measured parallel to the lot line, subject to the provisions of [§5.41](#) for buildings of uneven alignment or height. H is the height, measured as provided in [§5.30](#), of that part of the building for which the setback or yard is to be calculated.
4. Automotive uses are subject to the requirements of [§§ 6.30](#) and [6.40](#).
5. See [§5.07](#), Dwelling in Business and Industrial Districts.
6. See [§5.54](#), Exception for Existing Alignment.
7. See [§5.64](#), Side Yards for Non-Dwelling Uses in Business or Industrial Districts.
8. See [§5.73](#), Rear Yard in Business or Industrial Districts.
9. Where two different maximum height figures are specified with a hyphen for the same use in one zoning district, the lower figures shall apply to any lot or part of a lot located in a buffer area as defined by [§5.31, paragraph 3](#). Where a height figure is followed by a zoning district designation as defined in [§3.02](#), that figure shall be the maximum allowable height in that category for that particular district.
10. The setback requirements for other dwelling structures in any of the S and T districts shall be the most restrictive setbacks required for the dwellings permitted in the districts, but the side yard setback shall be no less than 10 feet in any case.
11. PBI (Public Benefit Incentives) for floor area ratio and height may be granted only if the requirements of [§5.21](#) and [§5.32](#) respectively are satisfied. B represents buffer area and NB nonbuffer area regulations. Further, projects shall also be subject to any design guidelines adopted by the Planning Board.
12. Where any land in a G-2.0 Districts abuts a public street opposite any land in an S district, any building in the G-2.0 District shall be set back a minimum 20 feet from the street lot line facing the S district and the setback area shall be landscaped and not be used to provide parking.
13. See [§5.91](#), Minimum Usable Open Space, for open space requirements for residential use with more dwelling units than are permitted as of right in that district.
14. For life care facilities in S-25 districts, the Board of Appeals may allow by special permit an FAR up to 0.3, where appropriate public benefits are provided, such as listed in [§5.21, paragraph 1](#).
15. For dwelling subject to [§5.11, paragraphs 2 and 3](#), the allowed floor area ratio maximum shall be the same as for 1-family detached dwellings subject to [§5.11, paragraph 1](#) in the relevant zoning district.
16. In the G-1.75 (LSH) Limited Service Hotel District, for Use 8A, Limited Service Hotel, the following dimensional requirements are allowed: Floor Area Ratio Maximum of 3.30; Height Maximum of 90 Feet and 8 stories above grade; and Minimum Rear Yard – None.

DATA SOURCES

GREENWAYS: Brookline Conservation Commission

Open Space: Brookline GIS, 3/97. Developed in house by Brookline GIS staff with the help of the Conservation Commission. Based upon the Boston Edison street network, parcels data layer. Attribute information derived from the 'OPEN SPACE IN BROOKLINE' publication by the Conservation Commission.

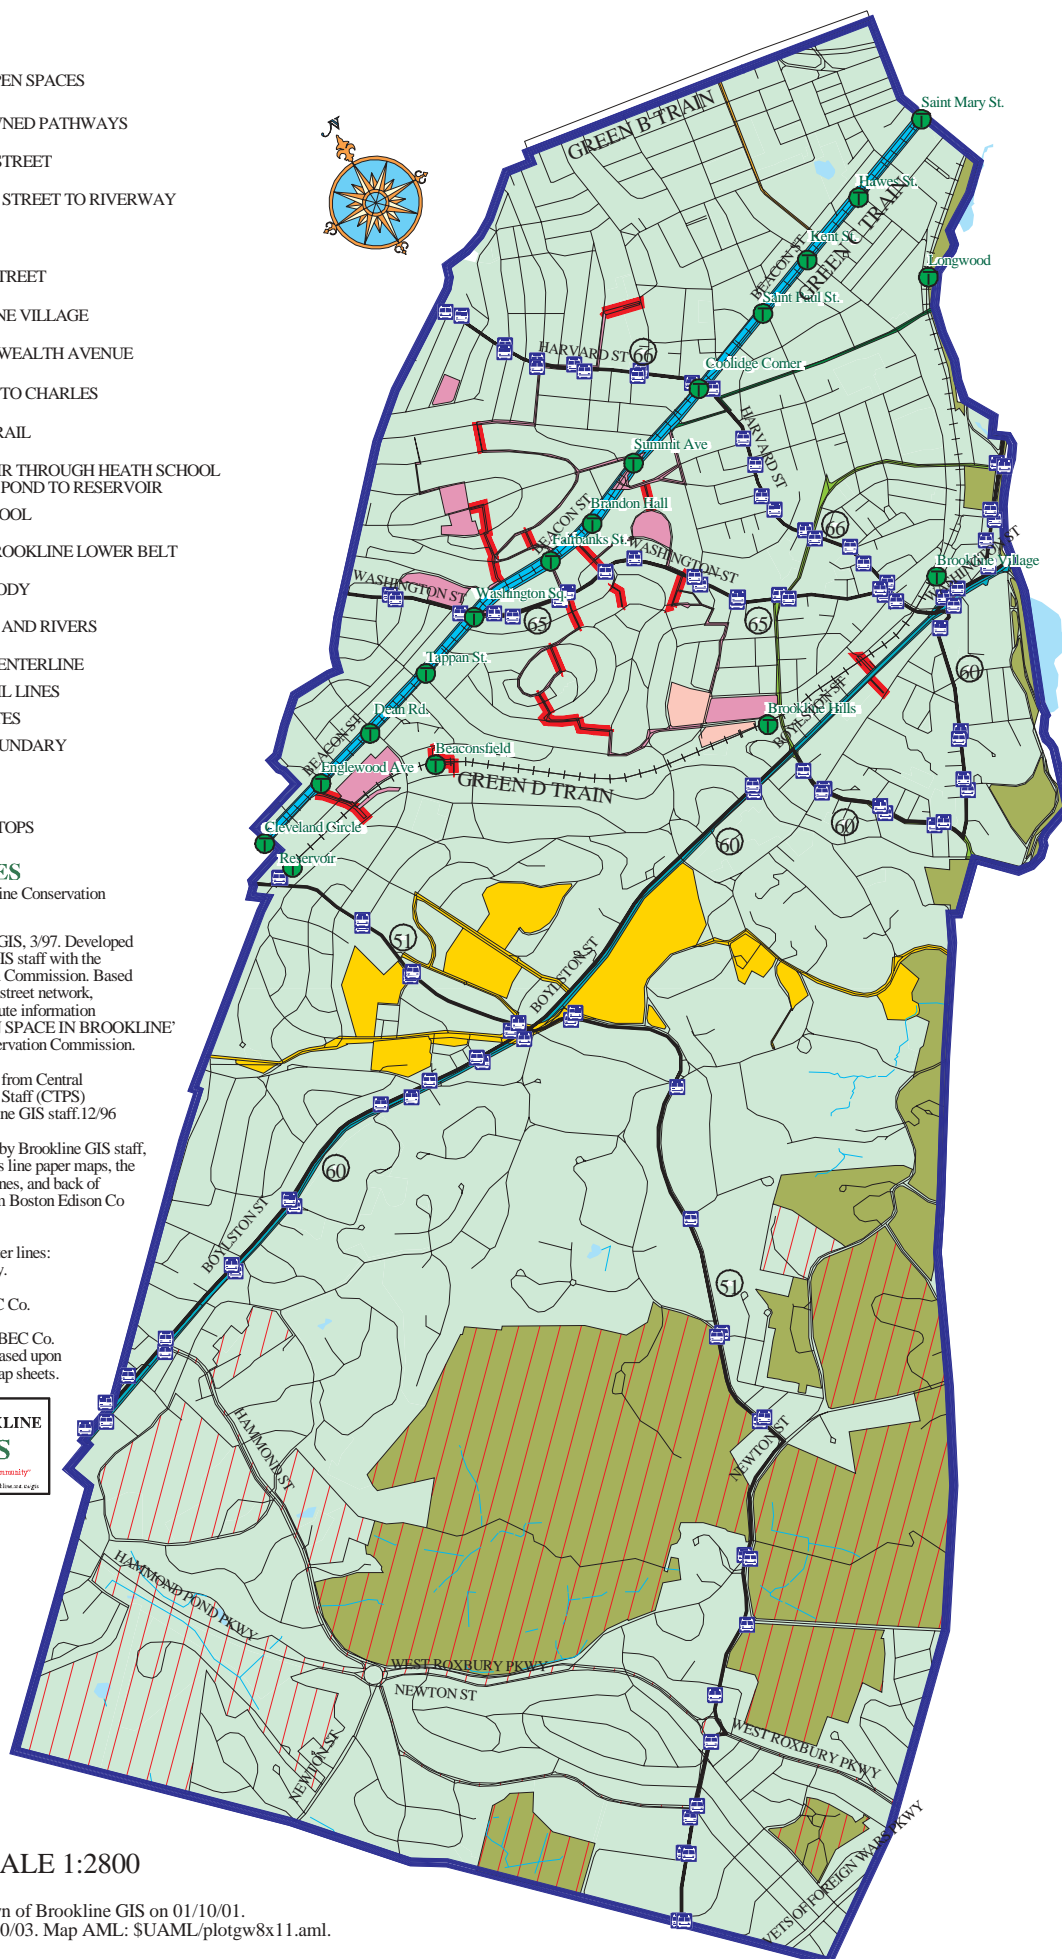

MBTA Lines: Obtained from Central Transportation Planning Staff (CTPS) and modified by Brookline GIS staff. 12/96

Bus Routes: Developed by Brookline GIS staff, based upon MBTA's bus line paper maps, the street edges, centerlines, and back of sidewalks base data from Boston Edison Co 08/97.

Street Edges, Street Center lines: Boston Edison Company.

WATER BODIES: BEC Co.

TOWN BOUNDARY: BEC Co.
Updated by CDM Inc. based upon Brookline Assessor's map sheets.
